WORK EXPERIENCE

Associate Software Engineer
Nagarro Software Pvt.Ltd

10/2022 - 11/2023   *India*

Achievements/Tasks

- Utilized Spring Boot to develop robust and scalable backend functionalities, ensuring seamless integration with front-end components.
- Contributed to code reviews and offered constructive feedback to peers, enhancing overall code quality and fostering a culture of continuous improvement.
- Java FullStack Development, focusing on advanced concepts including Spring Framework, Spring Boot, JSP, Hibernate, Git, GitHub, and React.
- Successfully designed and developed a project named "Product Community System," where administrators can add products and users can search and view products. Users have the ability to rate products, and administrators can approve or reject these ratings.

Freelance Experience
Kannad Tree Census

10/2023 - 12/2023

Achievements/Tasks

- Developed and implemented a robust admin portal for the Kannad Tree Census project, enabling efficient monitoring and management of user activities. Created features allowing the admin to track the number of app users and analyze user engagement metrics, contributing to data-driven decision-making.Implemented a user-friendly interface for the admin to view and manage tree data uploaded by users, enhancing the overall efficiency of the tree census process.
